

**LOVING PUPPY  
PAWS  
KENNEL**

- This dog is being sold as a breeding dog. The only guarantee for breeding soundness is that the dog will not have any life-threatening genetic defects. Loving Puppy Paws Kennel has made all efforts to ensure a sound breeding dog with proper wellness tests by a licensed veterinarian. Opinions about what each individual qualities and traits of a dog is or is not breeding quality changes from breeder to breeder based on the traits of their own dogs. For this reason, we do not guarantee any dog to be breeding quality. The buyer must do their best at the time of sale to determine whether or not the dog will be suitably matched with desired traits most complementary for their own breeding program. Loving Puppy Paws Kennel guarantees and makes a good faith promise, to give all the accurate information that Loving Puppy Paws Kennel is aware of at the time, requested by the buyer about the puppy, to ensure the very best chance that the buyer can correctly evaluate the puppy to have strengths and weaknesses that will be the most possible complimentary to the buyers breeding program. Adult size, temperament, eye color, fur type, and fur color are not guaranteed. Doodle colors are complex and could change with age.

I have read the above and understand the Loving Puppy Paws Kennel does not guarantee anything except what is highlighted in the written statement about "life-threatening genetic defects" and no refund shall be given unless proven by a licensed veterinarian in writing, to Loving Puppy Paws Kennel that a genetic life-threatening defect is present. If such genetic life-threatening defect is proven, Loving Puppy Paws Kennel will refund the full amount of purchased breeding rights only to the "Buyer". In the event of a refund, the "Buyer" will refer to the "Loving Puppy Paws Kennel Spay/Neuter Agreement", sign that agreement, and will be bound by that agreement and all its stipulations.
